MICK BUHAGIAR

I am pleased to announce the appointment of Mick Buhagiar as Westray's new Sales & Marketing Manager.

Mick joins Westray with a very strong welding and business development background, having established and run his own businesses in the past – Specpipe Technology, Critical Piping Systems and Adept Parking Systems. Mick ran these in partnership prior to selling his stake last year.

Previous to that, Mick was National Sales Manager at Lovells Springs and before that, held various sales roles in the printing and retail industries. He brings a wealth of experience to Westray in establishing sales strategies, budgeting and sales growth.

In addition to responsibility for a number of Westray customers, I have asked Mick to take control of Westray's total sales budget and therefore to guide the revenue growth of the company into the future. Tony and John will therefore report direct to Mick to ensure that we optimise our resources and achieve maximum focus in our marketing and sales efforts.

Mick will start at Westray on the 02nd June. Please make him welcome to the Westray team and give him your full support in this important role.

Geoff Simpson
MANAGING DIRECTOR
